

SUMMARY

Software Developer with 7+ years of experience building and maintaining enterprise applications, primarily using C#, .NET, ASP.NET, SQL Server, and Oracle for NEC client projects. Recently expanded into modern full-stack development with ASP.NET Core, REST APIs, React, Node.js, and cloud-based applications through BCIT and industry projects. Experienced across software design, development, testing, integration, and production support.

SKILLS

Programming Languages: C#, SQL, Java, JavaScript, C

Frontend / Mobile: React.js, React Native, Expo, HTML5, CSS3, Tailwind, Bootstrap

Backend: ASP.NET Core, ASP.NET, REST APIs, Node.js, Express.js

Database: Oracle, SQL Server, MySQL, MongoDB, SQLite

Cloud / Dev Tools: Docker, AWS Lambda, GitHub, VS Code, Visual Studio

SELECTED PROJECTS

FinSight AI – AI-Powered Financial Analysis Platform | Personal Project | C#, ASP.NET Core 8 Web API, Entity Framework Core, React, TypeScript, SQLite, ML.NET, OpenAI API **Apr 2026 – Apr 2026**

🔗 <https://portfolio-haven.vercel.app/projects/finsight-ai>

- Built a full-stack financial analysis platform using ASP.NET Core 8 Web API, Entity Framework Core, React, and TypeScript, with a decoupled frontend and backend architecture.
- Developed RESTful APIs and implemented data persistence using EF Core Code First migrations, SQLite, and LINQ.
- Built ML.NET pipelines for expense categorization and anomaly detection using SDCA Maximum Entropy, Randomized PCA, and Z-Score analysis.
- Integrated OpenAI API to generate contextual explanations and financial insights from transaction data.

Fall Protection Plan Mobile App | WorkSafeBC Project | React Native, Expo, Node.js, Express, MongoDB, SQLite **Jan 2026 – Apr 2026**

🔗 <https://portfolio-haven.vercel.app/projects/fall-protection-plan>

- Designed and implemented reusable React Native UI components and mobile workflows.
- Integrated frontend form workflows with backend APIs using Node.js and Express.
- Improved overall UI/UX experience for plan creation, review, and submission flows.
- Contributed to offline data handling and mobile form state management using SQLite.

PathPal – Accessibility-Focused Community Navigation App | BCIT Team Project | HTML, JS, Express, Node.js, MongoDB **Apr 2025 – May 2025**

🔗 <https://portfolio-haven.vercel.app/projects/pathpal>

- Developed community feed and user-generated POI (Point of Interest) submission features.
- Developed the front-end UI with HTML and JavaScript.
- Implemented a scalable MVC architecture using Node.js and Express.
- Stored user profiles, POIs, and crowd-sourced votes in MongoDB; hosted images via Cloudinary.

Full Stack eCommerce Website | Personal Project | React.js, MongoDB, Express, Node.js **Dec 2024 – Jan 2025**

🔗 <https://dailysweets-kappa.vercel.app/> 🔗 <https://dailysweets-admin.vercel.app/>

- Built a MERN-based eCommerce app with product display, cart, authentication, and admin panel.
- Developed the front-end UI with React.js.
- Designed and implemented RESTful APIs with Express and Node.js.
- Used MongoDB for database management.

WORK EXPERIENCE

Software Developer <i>Hi-Think Technology Corp. (Dalian, China)</i>	Oct 2011 – Apr 2019
- Developed and maintained enterprise ERP and healthcare applications for NEC client projects using C#, VB.NET, ASP.NET, ADO.NET, Oracle, and SQL Server. - Participated across the full software development lifecycle, including high-level design, detailed design, implementation, unit testing, integration testing, bug fixing, and production preparation. - Developed database-driven business modules and implemented SQL queries, stored procedures, and application data-access logic. - Collaborated directly with NEC teams and client stakeholders during onsite assignments in Japan to support integration testing, issue resolution, and release preparation. - Performed code reviews, defect investigation, maintenance, and quality assurance for enterprise systems.	

EDUCATION

Computer Systems Technology, Diploma British Columbia Institute of Technology - BC, Canada	Sep 2024 – Jun 2026
BSc, Information Management & Information System Dalian University of Foreign Languages - Dalian, China	Sep 2007 – Jul 2011
