

SUMMARY

Software developer with 7+ years of enterprise software development experience and recent full-stack web and mobile development experience through BCIT industry projects. Skilled in building modern web applications and mobile apps using React, React Native, Node.js, Express, MongoDB, SQL Server, and Oracle. Experienced in UI/UX-focused development, RESTful API integration, testing, and Agile collaboration.

SKILLS

Programming Languages: Java, C#, C, JavaScript, SQL

Frontend / Mobile: React.js, React Native, Expo, HTML5, CSS3, Tailwind, Bootstrap

Backend: ASP.NET, Node.js, Express.js, REST APIs, Firebase

Database: Oracle, SQL Server, MySQL, MongoDB, SQLite

Cloud / Dev Tools: Docker, AWS Lambda, GitHub, VSCode, Visual Studio, Eclipse, IntelliJ IDEA, Figma, Trello

TECHNICAL PROJECT

Fall Protection Plan Mobile App | WorkSafeBC Project | React Native, Expo, Node.js, Express, MongoDB, SQLite **Jan 2026 – Apr 2026**

- Designed and implemented reusable React Native UI components and mobile workflows.
- Integrated frontend form workflows with backend APIs using Node.js and Express.
- Improved overall UI/UX experience for plan creation, review, and submission flows.
- Contributed to offline data handling and mobile form state management using SQLite.

PathPal – Accessibility-Focused Community Navigation App | BCIT Team Project | HTML, JS, Express, Node.js, MongoDB **Apr 2025 – May 2025**
 <https://pathpal-zo0r.onrender.com/>

- Developed community feed and user-generated POI (Point of Interest) submission features.
- Developed the front-end UI with HTML, JavaScript.
- Implemented a scalable MVC architecture using Node.js & Express.
- Stored user profiles, POIs, and crowd-sourced votes in MongoDB; hosted images via Cloudinary.

Full Stack eCommerce Website | Personal Project | React JS, MongoDB, Express, Node.js **Dec 2024 – Jan 2025**
 <https://dailysweets-kappa.vercel.app/>  <https://dailysweets-admin.vercel.app/>

- Built a MERN-based eCommerce app with product display, cart, authentication, and admin panel.
- Developed the front-end UI with React JS.
- Designed and implemented RESTful APIs with Express and Node.js.
- Used MongoDB for database management.

Tailwind Web Application | BCIT Team Project | Bootstrap, Firebase, Firestore **Sep – Dec 2024**
 <https://comp1800-bbv13-bc8f5.web.app/>

- Developed an MVP for a recruitment and skill assessment platform with two teammates.
- Built a responsive UI with Bootstrap and implemented logic in JavaScript.
- Integrated Firebase for user authentication and Firestore for database management.
- Collaborated in Agile sprints using Figma, Trello and GitHub.

WORK EXPERIENCE

Software Developer | Hi-Think Technology, Corp (Dalian, CHINA) **Oct 2011 – Apr 2019**

- Involved in the software development process from design specification to coding, testing, and maintenance.

- Designed and developed enterprise modules for ERP and Health Management Systems for NEC clients using ASP.NET, VB.NET, Oracle, and SQL Server.
 - Collaborated with cross-functional teams and conducted onsite integration testing in Japan.
 - Ensured rigorous software quality through code reviews and unit testing.
-

EDUCATION

Computer Systems Technology, Diploma

British Columbia Institute of Technology - BC, CANADA

Sep 2024 – Jun 2026

BSc, Information Management & Information System

Dalian University of Foreign Languages - Dalian, CHINA

Sep 2007 – Jul 2011
